

Everything that is Vegas

The Fountain Hotel, Las Vegas, USA

11/23/2018

This hotel is everything that you would expect in Vegas, it is grandiose to the extreme and the size of it cannot be exaggerated. This was my second stay at the property on business and yes you can combine business with pleasure. Service is pretty good and the rooms are of a standard 5* nature. I was not expecting to have to pay USD 25 everytime I went to the gym, this is excessive and left a bad taste in my mouth. Food options were varied and quality was pretty good and as the hotel is on the strip its a short walk to other hotels and outlets. Make sure you get a room overlooking the fountains as this adds to the experience. would be much more fun to take a partner/wife with you and that's exactly what i plan to do next year.....
