

Excellent location and value for money

The Manhattan Hotel, New York, USA

A last-minute booking but well worth it! Stayed here from 30 July for 10nts. Spacious rooms and friendly staff. The beds are quite heavenly. Nothing much to say about the lobby and the elevators though, but it's no biggie. We especially loved the business centre on the 26th floor - 5 computers readily available for guests to use, and you can print, too. Times Square is just a 5 minute walk. Close to lots of shopping. Subway is almost next door (57th Street) - Columbus Circle is less than a 5min walk. Very close to Central Park. We really liked this place.
