

Massive!

The Fountain Hotel, Las Vegas, USA

11/21/2018

This hotel sums up Vegas. In a square mile on the strip there is 17000+ bedrooms! Coming from Dublin and being in this industry it was a learning curve. Do not stay here if you want personal service as there could be up to 7000+ guests (3800 bedrooms). There was at least a 15 min queue for breakfast each morning mid week. However the rooms, location, fountains and lobby are all top class. Its in the middle of the strip opposite the mono-rail within walking distance of all attractions. Had a meal in the Steak House and was excellent. Rooms clean and have all you need. Would reccomend this hotel if you get a deal and would stay here again.
